SKILLS SUMMARY

- **Languages:** Python, C++, Java
- **Frameworks:** HTML, CSS, Node.js
- **Tools\Platforms:** GIT, SQLite, Anti-Gravity, Windows, Arduino, Data Structures and Algorithms,
- **Backend:** Python, Node.js
- **Soft Skills:** Leadership, Event Management, Adaptability

PROJECTS

Fake Social Media Accounts Detection | GitHub

Nov 2025

- Developed a machine learning model to detect fake social media accounts using feature analysis such as posting patterns, follower–following ratio, profile completeness, and activity behaviour.
- Implemented data preprocessing techniques including text cleaning, normalization, feature engineering, and used classification algorithms (Logistic Regression, SVM, Random Forest, etc.) to achieve high detection
- Built a scalable evaluation pipeline with accuracy, precision, recall, and confusion matrix metrics to identify suspicious accounts and improve detection reliability.

AI Health Diagnosis Web Application | GitHub

Nov 2025

- Built an interactive **health-diagnosis web app** using *HTML, Tailwind CSS, and JavaScript* with real-time symptom analysis.
- Implemented a custom **AI-like logic engine** to generate differential diagnoses, severity ratings, and recommended actions based on user-entered symptoms.
- Developed a **local Storage-based backend simulation** to securely store and retrieve user diagnosis history.
- Designed a responsive and user-friendly UI with dynamic color-coded severity indicators for enhanced user experience.

Dot Game – Web-Based Reflex Training Game | GitHub

Aug 2025

- Developed an interactive reflex-based game **using** HTML, CSS, JavaScript, and jQuery, featuring a 10×10 dynamic grid of clickable dots. Implemented **real-time score tracking and countdown timer** with game-state transitions (Start, Active, Game Over).
- Used **randomized active-dot generation** to enhance gameplay unpredictability and used DOM manipulation for smooth UI updates. Ensured responsive and user-friendly interface through optimized layout, animations, and event-driven logic.

CERTIFICATES

- Master Generative AI & Generative AI tools (ChatGPT & more | Udemy) Aug 2025
- MS-Office | Advanced Computer Education Jun 2024
- Python Programming 101: Beginner’s Guide | Skill Up Mar 2024
- Artificial Intelligence with Python (by CS50) | Course Feb 2024
- Responsive Web Design | free Code Camp Nov 2023
- Operations Management Graduate MBA | Mind lustier Aug 2023

CO-CURRICULAR ACTIVITIES

- Earned a certificate for successfully completing the free code camp Challenge, demonstrating strong coding and eagerness. Sep 2024
- Member of NSS Nov 2024

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology – Computer Science and Engineering | CGPA: **5.3** Since Aug 2023
- **Narayana Educational Institutes** Vijayawada, Andhra Pradesh
Intermediate – PCM | Percentage: **70%** Apr 2021 – Mar 2023
- **Bhashyam School** Repalle, Andhra Pradesh
Class X (SSC) – CV Section | GPA: **10** Apr 2020 – Mar 2021
